

Membership Agreement

With this agreement, we the signers join the EduJedi Leadership Society for Schools. We will be in the present, fit to our community with time-honored truths, rather than distracted and pressured by incessant calls to be future ready without meaningful relevance and attachment to essential learning. We will strive to increase technology complexity with a dedication to real change in results. We are devoted to authentic arrival in the new hybrid learning reality, with skillful leadership. We seek our proper fit in the local-global consumer culture as a sustainable school that has mastered the tech reality.

The Official EduJedi Pact

We pledge to transformative relevance by co-opting the best of digital learning technologies, organizing people and resources for a student-centric and highly personalized experience, and to most importantly, leverage our human empathy to the best advantage for learners.

We are EduJedi.

The 5 R's: Our additional reasons for making this Pact include giving our schools and teachers a chance to:

- ◇ Reset. Computing device deployments and random software usage is insufficient to realize the efficiency and greater service that can be unleashed because of tech reliance. Joining the future requires a mindset change that compliments new social dynamics and economic drivers.
- ◇ Retool. Take practical steps for individual teachers and administrations to get to alignment across the bridge of change and retain relevance.
- ◇ Redesign. The entire experience of learning to provide sufficient core subject understanding while eliciting creativity, curiosity, and a high degree of interaction.
- ◇ Reorganize. To change structure, schedules, and personnel in an orchestration that leads forward and creates challenging environments attractive to learners and parents.
- ◇ Rehumanize. By not compromising on the technologies, we highlight the most important asset, our ingenuity and humanity.
